

EMOTORAD
Electric Cycles

RANGER

MADE FOR MORE

Meet the electric beast built for those who carve their own path. With its bold, moto-inspired frame and off-road capabilities, it's made to turn heads and take on any terrain. The Ranger is available in 2 size variants.

KEY HIGHLIGHTS

REMOVABLE BATTERY

A powerful 48V 12.75Ah Li-Ion battery built for long rides. It's fully removable, easy to recharge anywhere, and delivers up to 75KM on Pedal Assist.

7-SPEED SHIMANO GEARSET

Shift gears swiftly and effortlessly with the Shimano Tourney 7-speed drivetrain, whether you're climbing hills or cruising flats.

REAR HUB MOTOR

Powered by a 500W* EMotorad rear hub motor, the Ranger delivers instant torque with quiet, smooth performance. Just twist and go!

*Available starting October 2026

DISC BRAKES

Stop on a dime with mechanical disc brakes that come with auto cut-off to deliver smooth, reliable braking — no matter the terrain.

FRONT FORK

Ride rough or smooth, the 120mm travel double crown suspension absorbs everything the road throws at you, giving you superior control and unmatched comfort.

SMART STORAGE

A compact, buckle-on bag designed to sit securely on the Ranger's frame — perfect for your essentials on the go.

PUNCTURE PROTECTED TYRES

Conquer sand, street, or rocky roads with 20" x 4.0" puncture protected (up to 3mm) nylon tyres that grip and glide. These fat tyres offer unmatched stability, shock absorption, and pure off-road joy.

MOTO-STYLE FRAME

Built with high-tensile steel, the Ranger's rugged frame is inspired by café racers and mini bikes. It's as strong as it looks... and it looks like a beast.

LIGHTS, INDICATORS & HORN

Light your way, day or night, with integrated front and rear lights that come with a horn and hazard indicators to ensure visibility and safety.

CLUSTER C6+ DISPLAY

Stay informed and in control. This backlit display gives you real-time updates on speed, battery, PAS level, riding modes and more — all at a glance.
